## Comfortech

9-15 Holloway Place, Penrose  
Auckland 1061  
New Zealand

31 January 2024

**Proposal No:** ZP103724: Environmental Product Declaration Update for Comfortech

Comfortech (previously Tasman Insulation) published an Environmental Product Declaration (EPD) in 2019, covering Pink Batts Glass Wool Insulation products (EPD registration number S-P-01169).

Comfortech have engaged thinkstep-anz to update the above EPD which was valid until 17 January 2024. The update is a requirement of the EPD Australasia Programme.

The updated EPD will comply with ISO 14025 and EN15804+A2 and will, as was the previous EPD, be independently verified by a verifier approved by EPD Australasia. The timeline to update the EPD is 6-9 months, after which it will be published by EPD Australasia and, for international visibility, the International EPD System.

Kind regards,

A handwritten signature in blue ink that reads "B. Nebel".
